

By-Pass Flow Through Humidifier HE220A

By-Pass Flow Through Humidifier HE220A

INCREASING COMFORT WHILE PROTECTING
THE HOME

KEY FEATURES

- Up to 12 gallons per day; for homes from 1,500 to 3,000 sq ft.
- Utilizes home's HVAC system for humidity distribution
- Easy mounting on either warm air supply or return air duct of any forced-air furnace
- Less maintenance and cleaning than portable units.
- Replenishes moisture throughout the home to make it more comfortable
- Protects wood floors and furnishings from drying and cracking.
- Reduces static electricity
- Saves money and energy – because the improved humidity makes for a more comfortable home, the thermostat can be turned down a few degrees
- Easily installed directly to HVAC system for whole-house humidification
- Easy-to-use humidity control included.
- PerfectFLO® water distribution tray optimizes efficiency and water usage
- Installation Kit included in Canadian model
 - Required for new installation
